This report responds to a letter dated from Laura Sinram, Sr. Campaign Finance & Reviewing Analyst, dated August 13, 2014, concerning our May, June, and July reports. The letter raises the possibility that we may have made administrative allocations for disbursements made outside of the 70-day permissible time period (10 days before till 60 days after payment is made to the vendor). A double check of the administrative allocations confirms that all of the disbursements in questions were made within the permissible timeframe. Therefore there is no need for the Committee to transfer money back to its nonfederal account.
